City of Bentonville

Project Detail Sheet

CIP: 2007 - 2011

Department: Police

Year: 2007

Project Title: Patrol Vehicle

Rank: 1

Category: Replacement

Project Location: N/A

Project Status: N/A

Est. Cost: \$ 34,300

Funding: General Fund

Description and Justification:

Marked police vehicles need replacement every six to seven years, depending on mileage. With the "home storage" program, each vehicle is operated by a primary driver. With a primary driver, the vehicle's maintenance is superior, and the life of the vehicle is extended.

If vehicles are not replaced, maintenance increases and vehicles are used on multiple shifts (pooling vehicles). Police vehicles exceeding 90,000 miles are generally not as safe as lower mileage vehicles. Furthermore, a mechanically deficient vehicle for police service is dangerous for the officer and the public.

Relationship to mission and values:

Police Officers are "field based". The patrol vehicle is the means of delivery for police service, and the officer's office on wheels. This project supports the mission and general plan; ensuring that we can respond to demands for police service in an efficient and effective manner.

Relationship to the General Plan:

Replacement per the City of Bentonville vehicle policy.

Revised: June 2006

City of Bentonville
Project Detail Sheet
CIP: 2007 - 2011

Department: Police **Year:** 2007

Project Title: Patrol Vehicle **Rank:** 2

Category: Replacement

Project Location: N/A

Project Status: N/A **Est. Cost: \$** 34,300

Funding: General Fund

Description and Justification:

Marked police vehicles need replacement every six to seven years, depending on mileage. With the "home storage" program, each vehicle is operated by a primary driver. With the use of a primary driver, the vehicle's maintenance is superior, and the life of the vehicle is extended. If vehicles are not replaced, maintenance increases and vehicles are used on multiple shifts (pooling vehicles). Relationship to the General Plan:

Replacement per the City of Bentonville vehicle policy.

Revised: March 2005

City of Bentonville
Project Detail Sheet
CIP: 2007 - 2011

Department: Police **Year:** 2007

Project Title: Patrol Vehicle **Rank:** 3

Category: Additional

Project Location: N/A

Project Status: N/A **Est. Cost: \$** 34,300

Funding: General Fund

Description and Justification:

New marked police vehicles are required when additional officers are hired. Based on the "home storage" program, these vehicles are generally operated by a primary driver. With the use of a primary driver, the vehicle's maintenance is superior; and the life is extended. It should also be noted, the "home storage" program provides the appearance of a greater police presence within the city. This appearance has proven to be an asset, because the presence is a great crime deterrent along with traffic control.

Relationship to mission and values:

Police Officers are "field based". The patrol vehicle is the means of delivery of police service and the office on wheels. This project supports the mission and general plan; ensuring that we can respond to demands for police service in an efficient and effective manner.

Relationship to the General Plan:

Adding new police vehicles to supplement the hiring of additional officers is within the general plan.

Revised: March 2005

City of Bentonville

Project Detail Sheet

CIP: 2007 - 2011

Department: Police

Year: 2007

Project Title: Unmarked Vehicle

Rank: 4

Category: Additional

Project Location: N/A

Project Status: N/A

Est. Cost: \$ 21,400

Funding: General Fund

Description and Justification:

The purchase of additional undercover vehicles is necessary when officers are appointed to a newly created plain clothes assignment. Due to the "home storage" program, these vehicles are generally operated by one driver and stored at home.

It should be noted, these plain clothes officers are frequently subject to emergency call-outs from their home; and their direct response to the scene is usually critical.

Like the marked police vehicles, primary operators of unmarked vehicles will generally provide superior maintenance and extend life of the vehicle.

Relationship to mission and values:

Although most plain clothes officers work day shift & weekends off, they provide a 24 hour support role (frequent emergency call-outs) for the special needs of patrol. This project supports the mission; ensuring that we can respond to demands for police service in an efficient and effective manner.

Relationship to the General Plan:

Adding unmarked police vehicles to supplement newly created plain clothes positions are within the general plan.

Revised: March 2005

City of Bentonville
Project Detail Sheet
CIP: 2007 - 2011

Department:	Police	Year:	2007
Project Title:	Intoxalyzer	Rank:	5
Category:	Replacement		
Project Location:	N/A		
Project Status:	N/A	Est. Cost: \$	6,300
Funding:	General Fund		

Description and Justification:

The current intoxalyzer at the police facility is exceeding 11 years of age; and it's routinely off line for repairs. This instrument is crucial and necessary for gathering evidence in such cases as driving while intoxicated. In fact, this unit is almost always required for prosecution. Lastly, this unit is the only state approved instrument for gathering such evidence.

Relationship to mission and values:

The intoxalyzer is a necessary instrument for purposes of developing evidence in such cases as driving while intoxicated. This item is necessary for completing the mission of ensuring the police can respond to demands for police service in an efficient and effective manner.

Relationship to the General Plan:

This item clearly falls within the general plan of providing quality police service to the community.

Revised: March 2005

City of Bentonville

Project Detail Sheet

CIP: 2007 - 2011

Department: Police

Year: 2007

Project Title: All Wheel Vehicle (ATV)

Rank: 6

Category: Additional

Project Location: N/A

Project Status: N/A

Est. Cost: \$ 8,000

Funding: General Fund

Description and Justification:

The purchase of an all wheel vehicle (ATV) will enable Officers to have transportation in remote areas of the City. The City has recently annexed such areas as having a park with lengthy trail systems. This vehicle would allow for quality patrol and transportation of potential prisoners in such areas. Furthermore, this vehicle will support special functions that frequently take place within the City of Bentonville.

Relationship to mission and values:

The purchase of an all wheel vehicle is keeping the mission of ensuring the police can respond to demands for police service in an efficient and effective manner.

Relationship to the General Plan:

The purchase of an all wheel vehicle certainly falls within the general plan of providing a quality police service in the community.

Revised: March 2005

City of Bentonville

Project Detail Sheet

CIP: 2007 - 2011

Department: Police

Year: 2008

Project Title: Patrol Vehicle

Rank: 1

Category: Additional

Project Location: N/A

Project Status: N/A

Est. Cost: \$ 34,300

Funding: General Fund

Description and Justification:

New marked police vehicles are required when additional officers are hired. Based on the "home storage" program, these vehicles are generally operated by a primary driver. With the use of a primary driver, the vehicle's maintenance is superior; and the life of the vehicle is extended.

It should also be noted, the "home storage" program provides the appearance of a greater police presence within the city. This appearance has proven to be an asset because the presence is a great crime deterrent along with traffic control.

Revised: March 2005

City of Bentonville

Project Detail Sheet

CIP: 2007 - 2011

Department: Police

Year: 2008

Project Title: CID Building Expansion

Rank: 2

Category: Improvement

Project Location: Police Department

Project Status: New Project

Est. Cost: \$ 225,000

Funding: General Fund

Description and Justification:

The CID section of the police facility is currently operating over capacity. Originally, the facility contained three interview rooms. Based on CID growth, it became necessary to convert two of the rooms into offices. Likewise, any additional officers assigned to CID will not have a work space of their own. This expansion will certainly solve the current dilemma; furthermore, with proper planning this expansion will provide for all of the needs of CID for several years in the future.

Relationship to mission and values:

The CID expansion certainly supports the mission of providing quality police services to the community. With the expansion, police personnel will be afforded a larger working space containing more areas conducive to the needs of quality police work.

Relationship to the General Plan:

The CID expansion is certainly within the General Plan of ensuring the police can respond to demands for police service in an efficient and effective manner.

Department: Police **Year:** 2008

Project Title: MDT's for Police Vehicles **Rank:** 5

Category: Additional

Project Location: N/A

Project Status: N/A **Est. Cost:** \$ 110,000

Funding: General Fund

Description and Justification:

Officers having the capabilities of using a wireless MDT (Mobile Data Terminal) from a patrol vehicle will certainly be able to provide enhanced police services. MDT's will provide an officer with the following capabilities: secure transmissions, information about vehicle ownership, an operator's license, stolen property, or see if someone is wanted. These computers also allow officers to pull up maps or communicate with other officers with MDT-equipped cars. Lastly, officers are dispatched to service calls via direct input into the MDT by a dispatcher.

Relationship to mission and values:

Equipping all of the police vehicles with MDT's will certainly support the mission of providing enhanced quality police services to the community.

Relationship to the General Plan:

The purchase and installation of such equipment in police vehicles is within the general plan of ensuring the police respond to demands for police service in an efficient and effective manner.

Est. Cost: \$ 21,400

Funding: General Fund

Description and Justification:

Unmarked police vehicles need replacement every six to seven years, depending on mileage. With the "home storage" program, each vehicle is operated by a primary driver. With the use of a primary driver, the vehicle's maintenance is superior and the life of the vehicle is extended.

If vehicles are not replaced, maintenance increases and vehicles are used on multiple shifts (pooling vehicles). Police vehicles exceeding 90,000 miles are generally not as safe as lower mileage vehicles. Furthermore, a mechanically deficient vehicle for police service is dangerous for the officer and the public.

Relationship to mission and values:

Although most plain clothes officers work day shift & weekends off, they provide a 24 hour support role (frequent emergency call-outs) for the special needs of patrol. This project supports the mission; ensuring that we can respond to demands for police service in an efficient and effective manner.

Relationship to the General Plan:

Replacement per the City of Bentonville vehicle policy.

Year: 2010

Project Title: Patrol Vehicle

Rank: 8

Category: Additional

Project Location: N/A

Project Status: N/A

Est. Cost: \$ 34,300

Funding: General Fund

Description and Justification:

New marked police vehicles are required when additional officers are hired. Based on the "home storage" program, these vehicles are generally operated by a primary driver. With the use of a primary driver, the vehicle's maintenance is superior; and the life of the vehicle is extended.

It should also be noted, the "home storage" program provides the appearance of a greater police presence within the city. This appearance has proven to be an asset because the presence is a great crime deterrent along with traffic control.

Relationship to mission and values:

Police Officers are "field based". The patrol vehicle is the means of delivery of police service and the office on wheels. This project supports the mission and general plan; ensuring that we can respond to demands for police service in an efficient and effective manner.

Relationship to the General Plan:

Adding new police vehicles to supplement the hiring of additional officers is within the general plan.

Revised: March 2005

City of Bentonville

Project Detail Sheet

CIP: 2007 - 2011

Department: Police

Year: 2010

Project Title: Unmarked Vehicle

Rank: 9

Category: Additional

Project Location: N/A

Project Status: N/A

Est. Cost: \$ 21,400

Funding: General Fund

Description and Justification:

The purchase of additional undercover vehicles is necessary when officers are appointed to a newly created plain clothes assignment. Due to the "home storage" program, these vehicles are generally operated by one driver and stored at home.

It should be noted, these plain clothes officers are frequently subject to emergency call-outs from their home; and their direct response to the scene is usually critical.

Like the marked police vehicles, primary operators of unmarked vehicles will generally provide superior maintenance and extend life of the vehicle.

Relationship to mission and values:

Although most plain clothes officers work day shift & weekends off, they provide a 24 hour support role (frequent emergency call-outs) for the special needs of patrol. This project supports the mission; ensuring that we can respond to demands for police service in an efficient and effective manner.

Relationship to the General Plan:

Adding unmarked police vehicles to supplement newly created plain clothes positions are within the general plan.
