FOR IMMEDIATE RELEASE  
Date: April 26, 2010

### **Free Residential Energy Audits**

Mayor McCaslin and the City's Engineering Department staff are pleased to announce that customers may now order a free residential energy audit via the City's website at [www.bentonvillear.com](http://www.bentonvillear.com). The on-line form can be found by clicking on the Request and Energy Audit light bulb located on the front page.

Free residential energy audits are available to City of Bentonville Utility customers. A Certified Building Energy Performance Analyst will review your account consumption history and visit your home to conduct a walk-through inspection.

Guidelines for scheduling inspections are as follows: ·

1. You must own your home/apartment. Renters can have the owner or property manager request an audit.
2. Owner must be present for audit or provide written permission for audit. · You must be serviced by City of Bentonville Utilities.

After completing the on-line form, a representative from the Engineering Department will contact you to schedule your audit.
