

## **Lane Closure on E. Central Ave. from SE “A” to SE “F” Street**

On Tuesday, October 11, 2011 beginning at 9:00 p.m., East Central Avenue will be closed to through traffic from SE “A” Street to SE “F” Street for the beginning of the East Central Avenue Improvement Project. One lane will remain open for local traffic only for those that live along that route. The one lane that will be open to traffic will be for a west bound movement only. Residents will be required to turn west as they exit their properties. All through traffic is encouraged to use NE 2<sup>nd</sup> or some other alternative route for any through east-west travel. This closure will be in affect for the duration of the project (approximately 15 months) with modifications and additional closures as the work progresses. Additional press releases will be released as project progress dictates.

Weather or other unforeseen circumstances could cause delay of this closure.

If you have any questions or comments you may call Mike Churchwell, City of Bentonville Transportation Engineer, at 479-271-6840.
