

Lane Closures on SE 2nd and SE “B”

On Monday, October 17, 2011 beginning at 9:30 a.m., the east bound lane of SW 2nd Street from SE “A” to SE “B” will be closed and the southbound lane of SE “B” from E. Central Ave. to SE 2nd will be closed. These closures are in conjunction with the East Central Ave. Improvement Project. Those wishing to access Dave Peel Park will not be able to park on SE “B” as usual and will need to find alternative parking areas. Citizens will need to access the park from either the north side or west side of the park and avoid drainage construction that will be taking place along the east side of the park. The duration of these closures will be several weeks. Additional press releases will be issued as project progress dictates.

Weather or other unforeseen circumstances could cause delay of this closure.

If you have any questions or comments you may call Mike Churchwell, City of Bentonville Transportation Engineer, at 479-271-6840.
