

**Lane Closure on E. Central Ave.**  
**From SE “A” to SE “J”**

On Monday, December 5, 2011 beginning at 9:00 a.m., East Central Avenue will be closed to through traffic from SE “A” (Downtown Square) to SE “J” Street to continue the next phase of the East Central Ave. Improvement Project. One lane will remain open for local traffic only for those that live along that route. The one lane that will be open to traffic will be for a westbound movement only. Residents will be required to turn west as they exit their properties. All through traffic is encouraged to use NE 2<sup>nd</sup> Street or some other alternative route for any through east-west travel. This closure will remain in effect for the duration of the remainder of the project (approximately 15 months) with potential modifications as the work progresses. Additional press releases will be released as the project progress dictates.

Weather or other unforeseen circumstances could cause delay of this closure.

If you have any questions or comments you may call Mike Churchwell, City of Bentonville Transportation Engineer, 479-271-6840.
