

**Street Closure of SE “B” St. Between E. Central Ave.  
and SE 2<sup>nd</sup>**

Due to roadway instability issues resulting from the drainage construction around Dave Peel Park, beginning at 2:45 p.m. this afternoon (10-21-11) SE “B” Street from East Central Ave. to SE 2<sup>nd</sup> Street will be completely closed and will remain that way for approximately two weeks. As a result of this closure, the portion of SE 2<sup>nd</sup> that had been closed to east bound traffic between SE “A” and SE “B” will be reopened to two way traffic during the duration of the complete closure of SE “B”.

If you have any questions or comments you may call Mike Churchwell, City Transportation Engineer, at 479-271-6840.
