and Compassion”*

Bentonville Fire Department

The Bentonville Fire Department was established in 1887 and has worked continually since then to provide the best in protection for our city. We began providing ambulance service in 1977 and now provide the best in paramedic coverage for 133 square miles of both Bentonville and areas of Benton County. We average about 3500 calls per year.

The statue design has not been finalized, but this drawing is representative of what the statue might look like

Bentonville Fire Station One, view from SW 8th and A

The idea for a statue to be donated to the city came in 2006 when we first began plans for a new headquarters for the BFD. With the Crystal Bridges Museum of Art fast becoming a reality, we wanted a piece of art that would be prominently displayed at our station for all to appreciate.

Brick pavers are being sold and will be made into a sidewalk and viewing area around the statue. We have available the standard 4" x 8" brick which will hold up to three lines of 15 characters each for a \$100 donation.

Corporate sponsor pavers are 8" x 8" and can be engraved with your corporate logo for a \$1000 sponsorship

The Bentonville Fire Department Paid Firefighter's Association was organized in the early 1970's to provide a means of support for the firefighters in their daily operations. We have provided food staples, furniture, appliances, kitchen items, and many other supplies that the firefighters use daily that weren't supplied by the city.

Beginning in 1999, the firefighters have provided scholarships for Bentonville High School graduates and now provide \$2000 per school year in funding through various fundraising efforts.

As firefighters and public servants, we have always been alert to the needs of the community and we proudly serve the citizens of Bentonville Arkansas
