

City of Bentonville Street Closure-Central Ave. from Main to E. "A"

Beginning at 10:00 a.m. on Friday, March 21, 2008, West Central Avenue, from West "A" St. to Main Street and Main Street from Central Avenue to North 2nd Street, which has been closed since February 19th, will be opened back up to local traffic. At the same time, East Central Avenue from Main Street to and including the intersection of East "A" Street along with NE "A" Street from Central Avenue to North 2nd (in front of Courthouse) will be closed to traffic for the second phase of the utility work in conjunction with the Downtown Square Enhancement Project. Detour signs will be in place to help guide and direct traffic around the work area. During this phase, the sidewalks will still be open for pedestrian traffic. The duration of this phase is anticipated to last for approximately two weeks.

Please be advised that this is the second planned street closure of several more to come over the course of the next 7 to 8 months in conjunction with the Square Project. Weather and other unforeseen circumstances may postpone the opening of the current closed section and closing of the planned next phase and may also result in a longer duration than planned. Future closures will be announced as far in advance as possible.

Information about the street closure and detour routes may also be viewed on the City of Bentonville website at www.bentonvillear.com by logging on, click on the link "Downtown Square Renovation" under the City Events section.
