

Attention Rental Property Owner/ Manager;

Criminal activity in rental property is expensive. It costs the property owner in lost rentals due to fear, the expense of damage and drug lab clean up. There is also a great cost to the police in resources and man hours spent responding to calls for service.

The Bentonville Police Department invites you to participate in Bentonville's

Crime Free Multi-housing Program.

This is an international program that has a proven record of success. It is designed to greatly reduce the criminal activity and police calls to your property through the cooperative efforts of management and law enforcement.

Training will be provided free of charge for property owners, managers, security personnel, and maintenance personnel. The training will include information on: applicant screening, background checks, warning signs of drug activity, crisis resolution, the eviction process, common sense self-defense, and mechanical security elements.

We at the police department are excited about this program for our community and look forward to your participation.

For more information regarding the benefits of the program and/or to enroll for participation, please email the Crime Free Coordinator, [Sergeant David Green](#), or call 479-271-3181.

Thanks, in advance for your interest, we look forward to hearing from you soon.
